1.977% Error for the length of the car. This can be attributed to extruding the headlights and adding an extruded license plate.

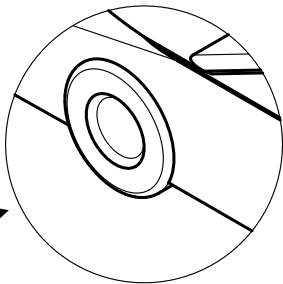

5.53% Error for the width of the car. This can be attributed to extruding the wheels slightly so the fillets would be visible

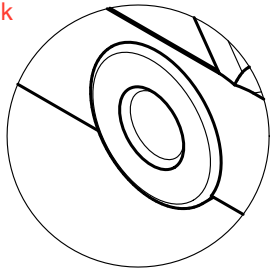

.555% Error for the height of the car. This can be attributed to extending the roof slightly to make it more rounded.

Specifically dimensioned wheels to match the design of the car. In addition, I added extrusions and fillets to make the wheels look more sporty.
